Famous "Intern" Has Been Ab. sent From Prison Barracks for Some Weeks.

It is the opinion among army officials at Oglethorpe that Count Minotti, who was interned at the United States war prison barracks there will soon be released as a free man. Count Minotti was recently taken away from the Oglethorpe barracks and sent to New York. Since that time long articles York. Since that time long articles have appeared in Chicago papers reviewing the count's trial, and it is generally believed that if Count Minotti is not now walking the streets a free man that he will be before very long. The lawyers throughout his trial in Chicago made every effort to prove that the count was not guilty of any violation of the espionage act, and that the money which he spent and that the money which he speni-so freely was that of his wire, who is the millionaire heiress, daughter of Swift, of Swift and Company, meat

The countess came to Chattanooga regularly every two weeks to see her nusband at the camp in the prison barracks, and usually brought many delicacies with her. It will be remembered that the count came to this country before the war and married this american helps. He is an Australian this American beiress. He is an Austrian count.

While at the camp, those in charge of the prison barracks say that he was willing to do anything in the way of work, that he would mount the supply wagon in his shirt sleeves, and ride with the other prisoners to Lytle unload the supplies and go back to the prison barracks with a broad mile on his face as though he was on a camping trip, while the other millionaires sat around and enjoyed the life of leisure and a good time,

No one group of persons has ever worked more faithfully or tirelessly during a distressing period than the doctors of Chattanooga have worked during the recent Spaish influenza epidemic. Many of the physicians have worked from fifteen to twenty hours a day and even longer. Some of them are known to their close friends to have labored three whole days and nights, without once removing their clothes for sleep, snatching only briefest kinds of naps. Of all this, however, the doctors are most reluctant to speak encouragingly of the epidemic. "There is a marked difference in the number of new cases reported this week and those of last," said Dr. Meacham.

Praises Relief Workers.

Dr. L. C. Williamson of East Lake says the influenza epidemic of this week. "We have had very few deaths and I think the influenza will be over this week." He spoke highly of the Red Cross and the splendid work in relieving the sufferers. Dr. German P. Haymore is another physician who has worked constantly among the sick ever since the epidemic and believes the crisis has been passed. Other doctors who have given of their time and ability unstintedly, but the doctors are most reluctant to speak encouragingly of the epidemic. "There is a marked difference in the number of new cases reported this week and those of last," said Dr. Meacham.

Praises Relief Workers.

Dr. L. C. Williamson of East Lake says the influenza epidemic of this suburb is fifty per cent better than of last week. "We have had very few deaths and I think the influenza will be over this week." He spoke and the last week. "We have had very few deaths and I think the influenza epidemic."

Dr. L. C. Williamson of East Lake says the influenza epidemic of this week. "Dr. Haymore is another physician who has worked constantly among the sick ever since the epidemic of the who could not be reached over the telephone for a personal expression are: Dr. Cooper Holtzclaw, Dr. W. G. telephone for a personal expression are: Dr. Cooper Holtzclaw, Dr. W. G. Bogart, Dr. W. A. Banks, Highland park, Dr. G. R. Walker, Ridgedale; Dr. E. A. Gilbert, St. Elmo; Dr. E. R. Hochstetter, Sr., Ridgedale; Dr. A. T. Peay, Dr. J. M. Broyles, East Lake, Dr. T. E. Abernathy, Dr. S. I. Yarnell, Dr. O. Y. Yowell, Dr. J. E. Green, Highland park, and Dr. Clark of East Lake. and it is their friends who give any clear idea of the self-sacrificing part they have played. Practically one-third of the active physicians have been ill some time dur-ing the past two weeks, caused by over work, exposure, grip or loss of sleep. The hope and wish of every physician was to relieve as many of the suffering

PERFORM NOBLE SERVICE

Women Motorists Demonstrate They
Are Not Fair Weather Patriots.
The women motorists of Chattanooga during the past week have demonstrated that they are not fair weather patriots. Regardless of bad streets had roads in the suburbs, and the difficulties which they often encounter in locating the calls for medical relief, they have been on the job daily driving for the doctors from Camp Greening for the doctors from Camp Green-leaf wife are working under the direc-tion of the public health department, stamping out the influenza epidemic. Some of the women motorists are so eager to serve that they insist on reporting every day for this service. Others, when called on to fill out a quota of cars on a certain day gladly respond.

Dr. E. T. Newell, of the Newell Infirmary, could not be reached until a late hour Monday, owing to every moment of the day being devoted to a very serious case. "The epidemic seems to be subsiding," said Dr. Newell "we have been every crowded most There is a great need for additional very serious case. "The epidemic seems to be subsiding," said Dr. Newell, "we have been over-crowded most of the time. The cases we have now are considered very serious, owing to pneumonia having developed."

Dr. E. B. Wise, one of Chattanooga's best known doctors is of the opinion that the disease does not affect persons more than sixty years old, "Conditions in the city are rapidly improving, and with the aid of sunshine the malady will be stamped but in a few days," said Dr. Wise, "We are not trying to make big bills, but we run from place to place twing to make the past to relieve those who have volunteers to relieve those who h

said Dr. Wise. "We are not trying to make big bills, but we run from place to place trying to relieve the sick, and not make money. I doubt if any of the doctors are keeping books. We don't have time and won't take time, stated the dector. for Tuesday. Chattanoogans furnishing cars the public health department for to-day include Miss Elizabeth Strock, Mrs. C. E. Byington, Mrs. Charles Twinam, Mrs. C. H. Clemmons, Miss Betty Fay Bates, M. H. Silverman, B. W. Beck and the Overland-Chaitanooga Dr. James L. Bibb is of the opinion that the malady will be stamped out this week. "I visited only two new cases Monday," said Dr. Bibb, "while all during the epidemic I have visited company through H. S. Smith. Cars will be furnished for tonight's service by F. H. Sparks and S. A. Williams. fifty-one patients a day including the boys at Baylor and McCallie school." In speaking of the influenza situ-ation, Dr H. L. Fancher said: "It is

FURTHER CLUBROOM PLANS

The budget for the girls' club room just as many as I possibly could see."

No Change at Rossville.

Dr. G. P. Wilibanks, of Rossville, has been visiting from ten to twenty patients a day. "The condition here remains unchanged," said Dr. Willbanks, "I have not lost one patient, but my own daughter, Miss Mildred Willbanks, "I have not lost one patient, but my own daughter, Miss Mildred Willbanks," and publicity.

The budget for the girls' club room of the Y. W. C. A. is expected to come through any mail now, says Miss Ella Charls, war work secretary, then everything will move right along. Mrs. J. T. Lupton, local chairman, will have a meeting and appoint her committees, which will cover finance, house, choral and publicity.

miss Ella Charls will have her headbut my own daughter, Miss Mildred Willbanks, was a victim of the dread disease."

Dr. George R. West of the West Ellis infirmary, also agrees that the epidemic has reached its crest. "Our infirmary has been filled throughout the past two weeks, but the cases we receive now are mostly pneumonia and not influenza," said Dr. West.

Dr. B. S. Wert said "he had never seen anything like the situation which has been prevailing over the city the past two weeks."

"Many citizens have become hysterical about the disease, others thought they were sick when they were not, and others were sick but didn't realize it until it was too late. Only six new cases were reported Tuesday morning, which means a drop of twenty cases," continued Dr. Bogart, "I have visited over fifty patients every day for two weeks, but this week shows quite a let-up."

Fewer New Cases.

Dr. J. W. Johnson, of the Woolford-Johnson infirmary, stated Monday evening that the influenza epidemic was much better and that the number of new calls were fewer. "I have been working sixteen to twenty hours and telephone at the club, disact Hallie Price, recreation director, Miss Hallie Price, recreatio

of new calls were fewer. "I have been working sixteen to twenty hours and sometimes more during the epidemic," said Dr. Johnson. "Many days I visited from thirty to one hundred and
